

January 11, 1941

Dear Dr. Tidd:

I am enclosing copies of letters I received from Karl Menninger.

I don't know whether you received directly a copy of the report of the Committee on Certification.

I propose that we meet in the next few days to discuss these letters and other matters, and that we thereafter make it a regular custom to meet at certain intervals to discuss problems concerning the psycho-analytic movement as they may come up.

Sincerely yours,

Dr. Ernst Simmel.
