Dear Dr. Brunswick,

Thank you so much for the trouble you took! The information I got reading the letters you have kindly send to me is very valuable. I learn, that I should have more contact with Dr. Jones than I have already. I shall follow the direction.

You see, consequently I started to write pseudo english letters. But of course I address them to indulgent friends only. All the other letters are looked through by the teacher ^{who} ~~which~~ helps me now - according to your advice.

Sincerely

Yours

Max Berg.
