Nov 1/52.

Dear Dr Ferris:

You are price less - I too. Therefore  
you can't buy anything from me -  
I send you the Freud gem <sup>FOR KEEPS</sup> because  
books should be used all the time;  
not burn like candles in a clo-  
sed cupboard. A pamphlet on  
"Doppelt lieber Sellward" is added -  
once upon a time the East Prussian  
Government published my book on  
"Suicide in Hamburg from 1880/1930".  
At that time I had the huge

Richard D. Edgeworth  
Suicide literature fairly under  
control, I was young then you  
know.

Hope to see you perhaps on  
Nov 14th when I will try to in-  
terest the local 3rd generation  
in to the 18th Century via Freud's  
Self Analysis, and his contribu-  
tion of a quarter.

My very best

R. D. E.
