

February 12, 1946

Dr. Emanuel Windholz
2686 Union Street
San Francisco 23, California

Dear Dr. Windholz:

We had some more discussion about the Memorial meeting. Hanna Fenichel and Mrs. Deri repeatedly emphasized that they don't like our idea and prefer Bernfeld's suggestion. Finally we (the Committee members here) agreed to accept Hanna Fenichel's specific wish that the program should consist of two items: first, I should talk about Fenichel and second, someone should read one of Fenichel's papers. Do you and the San Francisco members agree?

Hanna Fenichel would also like, if possible, to have this meeting on a Friday, because that is our usual seminar and meeting evening. Would the San Francisco members agree to having the meeting on Friday, March 8, and then our Executive session of the San Francisco Psychoanalytic Society on Saturday?

Sincerely yours,

Dr. Ernst Simmel
