Dr. D. W. Winnicott  
87 Chester Square  
London S.W. 1, England

Dear Doctor Winnicott:

I was sorry to read in your letter which Dr. Williams forwarded to me that you are anxious about arrangements which might be exhausting to you during your stay in Los Angeles. I assure you that nothing of the kind was planned by anyone having anything to do with arrangements.

However, we understand and respect your desire for rest and privacy, and of course I cancelled arrangements for the proposed dinner on Tuesday with members of the Education Committee.

May I again assure you that we are very much looking forward to your visit.

Cordially yours,

Lawrence J. Friedman, M.D.  
Chairman, Education Committee
