510 S. Vermont Street
Los Angeles, California

Gentlemen:

Dr. D. W. Winnicott has been invited to speak for the Los Angeles Institute for Psychoanalysis and the Los Angeles Psychoanalytic Society to present his views on developments in psychoanalysis and to relate findings of his own professional work. Dr. Winnicott has been a pediatrician and practicing psychoanalyst for about thirty years located in London. He is the author of several articles and books on child development, in particular, mental development. He has been the President of the British Psycho-Analytic Society for several terms and is an internationally recognized authority in his field.

It is because of his originality and well-founded knowledge of certain areas of psychiatry that the above-named Institute and Society feel particularly honored to have him as a speaker and lecturer.

Sincerely yours,

Carel Van der Heide, M.D.
Training Analyst and Former
Dean of the Training School
of the Los Angeles Institute
for Psychoanalysis
Diplomate, American Board of
Psychiatry and Neurology
