Dear Ernst:

Thank you very much for your letter. I personally do not believe that your letter to Holmer achieved its purpose, namely to explain something to him. It might be possible to do that more effectively in a personal conversation, but to be perfectly honest, I question even that. I can hardly imagine that Holmer is not aware of the facts you described to him and if he isn't, why isn't he?

I will be glad to discuss any other aspects of these problems with you and I do it frequently with many others when I am East and have an opportunity to talk to some of those who really have no idea of what is going on.

I hope to see you soon. With very best regards,

~~Sincerely yours,~~
