known an. important that an. after an. completed
once told me that pr. was an affront
~~intended~~ attack on an, thought I was 'brazen
and sexual -

Also an. never interpreted my doubts re
being an an. + brought in reality of
commitment to profession + that finished
it -

Dr after finishing - bathroom overflowing
filled up Room + shit - I thought finally
Auel material coming up but he explains
it as anger re termination, + that's what
I wanted to give to him
never interpreted dr. well or
at all -
