Dear Dr. Loewenberg:

It is very kind of you to keep me posted on the development of your Child Guidance Clinic. Anybody who works with children as much as I do is of course especially interested in these developments.

As regards to Fluegel's "Men and Their Motives" which you mentioned, I have to admit my lack of education. I have not read it and I even have not read "Men and Morals" yet, which is waiting for me in my book shelf.

We have our semi-annual meeting of the California analysts in San Francisco on April 25 and 26. Will you by any chance be there at this time? I would be glad to see you again.

With best regards,

Sincerely yours,

Hanna Fenichel, Ph.D.
