Bakersfield, California

Dear Doctor Loewenberg:

Thanks very much for your letter and the enclosures.

The world is small: Professor Reichenbach not only remembered your father, but his sister went to your father's school, and he is delighted to open the discussion. I am very pleased with the turn of events and I hope you will be equally pleased.

Looking forward very much to Friday the 14th, I am most

Sincerely yours,

Hanna Fenichel, Ph.D.
