

*Fenichel's
mem meeting*

105

February 5, 1946

Major Norman Reider, M.C.
74 Perry Street
New York City 14, New York

Dear Dr. Reider:

For our Memorial meeting, we asked Bernfeld to give a twenty minute talk about Fenichel as a Scientist. Up to now Bernfeld has refused.

Would you be willing to take this subject? I think either Bernfeld or you are best equipped to deal with this side of Fenichel's personality.

If you would take this assignment, then Greenson could talk about Fenichel as a Teacher. I am scheduled to present Fenichel the Man.

Best regards,

Sincerely,

Dr. Ernst Simmel
