Dr. Karl A. Menninger
The Menninger Clinic
Topeka, Kansas

Dear Karl:

Enclosed is a paper which I read at the Fenichel Memorial meeting. Since our friends here insisted that the paper be published if possible, I sent it to the Quarterly. The Quarterly sent it back, with a remark that they were putting out a Fenichel number, with a eulogy by Dr. Loewenstein, which he had presented before the New York Society.

Do you think you would like to publish my paper in the Menninger Bulletin?

I would appreciate an early reply.

Kindest regards,

Sincerely,

ES:dh
