

Minutes meeting at Dr. Lewy's

taken by Kupper

2/25/5

### MAJOR Decisions:

1. a notice to all candidates that our group would be willing to send them an explicit ~~number~~ <sup>statement</sup> of scientific differences which helped cause a split in the society. Dr. Mindlin to be called to ~~be~~ be asked to submit any further questions the candidates would like to be answered.

It was unannouncedly agreed that no member of our group would consent to appear in person to explain the split. This would merely add to the transference difficulties of the candidates.

Our ~~absence~~ <sup>absence</sup> helped point out a major difference in our attitude as contrasted to the other groups ~~candidate~~ attitudes toward candidates.

2. Outline of courses and lecturers for the next trimester.

cf. other sheet
