

Dr. Robert P. Knight
The Menninger Clinic
Topeka, Kansas

January 10, 1940

Dear Doctor Knight:

In regard to your inquiry about Dr. Windholz I want to say that I favor his application for membership in the Topeka Psychoanalytic Society. Personally I only know him slightly, but it is my impression that he is intelligent and conscientious in his attitude towards psychoanalysis. I am enclosing the written opinion of Dr. Fenichel and Mrs. Deri about the applicant.

At this occasion I also wish to forward to you the copy of a report which Dr. Bernfeld just recently mailed to me about the training activities in San Francisco. I feel that I should report about the psychoanalytic work in San Francisco, because it is a radiation of the Los Angeles Training center, which is headed by the Topeka Training Committee.

Sincerely yours,

Dr. Ernst Simmel
