Albert Kandelin, M.D.
9735 Wilshire Boulevard
Beverly Hills, California

Dear Doctor Kandelin:

Thank you for your kind letter and the enclosed copy of Bernfeld's to Karl Menninger.

There is no one in San Francisco who is proceeding with studies of psychoanalytic history. It is regretful that we could not collaborate on this. I will try to explore such a possibility with some local colleagues.

Enclosed is the folder of the psychoanalytic "Klinik" which I promised a long time ago. I tried to make copies, however, they do not satisfy my expectations. If you are interested you could try to make photographs of it. It is a very personal possession of mine and I cannot give it to you. I am sending it via registered mail, to insure its "arrival". Please return it to me.

Kindest regards.

Cordially,

Emanuel Windholz, M.D.
