Countertransf. f. to my pr.

24 yr old woman in girl in R acknowledged my pr. Readily however her f. of envy were obscured and resulted in boring, uninvolved material. It was not until I had a misc. which she could not permit herself to see that her angry death-curious f. became apparent as I explored why she ~~could~~ see could not see - it opened up the an. In going back over my notes - - - -

~~2 1/2 yr old ch. wanted to grow a nurse~~

My countertr., namely taking it for granted that she'd perceive my pr. but not being alert to the fact that she might defend herself by "not feeling" prevented me from analyzing her reactions - ~~th~~ it was more inconceivable that another woman would not react to my loss so I then began to look & probe -
