The following is a report of the activities of the Los Angeles Institute for Psychoanalysis for the fiscal year June 1, 1964 - May 31, 1965.

At the last Annual Meeting, June 11, 1964, the following officers were elected:

Mr. Walter Hilborn, President, Maimon Leavitt, M.D., Secretary,  
Leonard M. Rosengarten, M.D., Treasurer.

On August 4, 1964, a special meeting of the Professional Committee was held. All training analysts were invited to attend this meeting. The order of business was essentially a consideration of the report of the Committee on Institutes following their April visit to our Institute. Because of the importance of the report and the issues involved, it was felt best to have the meeting at this time rather than wait until the Fall.

The Professional Committee decided that the report should be sent to the Joint Committee on Mutual Problems for their consideration and be made available to all members of the Institute.

On April 6, 1965, the Board of Trustees passed the following amendment to the By-Laws:

ARTICLE VIII - Organization of the Divisions of the Institute

Section 1 - The Training School:

"The Training School of the Institute shall be expressly managed by the Education Committee. Training Analysts under the age of seventy shall constitute the Education Committee."

This change is not retroactive.

Dr. Hanna Fenichel was appointed a member of the Committee to Study Reorganization of the Institute and also to be a member of the Joint Committee on Mutual Problems of the Institute and Society.

EDUCATION COMMITTEE

Lawrence J. Friedman, M.D.  
Dean of the Training School

A detailed report of the many activities of the Education Committee is sent to you each year by Dr. Friedman, but I would like to mention a number of items of interest.

Dr. Lewis J. Fielding was appointed Supervising Analyst.

The following were reappointed Training Analysts:

Leo Rangell, M.D. - 1964-1969  
Henry Lihn, M.D. - 1965-1970  
Lawrence J. Friedman, M.D. - 1965-1970  
Robert H. Jokl, M.D. - 1965-1968  
Rudolf Ekstein, Ph.D. - 1965 - 1970

Elected Training Analyst Trustees:

For 1964-1967: Leo Rangell, M.D.  
Carel Van der Heide, M.D.  
Ernst Lewy, M.D.

For 1965-1968: Henry Lihn, M.D.  
Jack A. Vatz, M.D.

I am sorry to report to you that Dr. Lawrence J. Friedman has resigned as Chairman of the Education Committee and Dean of the Training School, effective June 3, 1965. He has served in this capacity for the past four years.

Dr. Friedman has been an important and influential part in the development and growth of the Institute and Society. Since 1952, he has served in the following capacities:

Los Angeles Institute for Psychoanalysis

Instructor - 1952  
Analyst Member - Board of Trustees - 1955-1958  
Training Analyst - 1957 - present  
Training Analyst Trustees - 1958 - 1964  
Dean of the Training School - 1961 - 1965

Los Angeles Psychoanalytic Society

Secretary - Treasurer - 1955-1956  
Vice President - 1957-1958  
President - 1958-1960

During his term of office as Dean, he has presented and been responsible for many changes. His most recent interest has been the reorganization of the Institute, Society and Education Committee.

His suggestions have far reaching consequences and are of great importance. Some of these changes have already been put into effect, others at the present time are being studied by the Joint Committee on Mutual Problems. I am sure that many of his proposals will be incorporated in the recommendations of this committee. Dr. Friedman has been devoted to the affairs of the Institute and his resignation has been accepted with regret by the Education Committee and the Board of Trustees.

At the last meeting of the Education Committee, Dr. Henry Lihn was elected Dean of the Training School and Chairman of the Education Committee to fill Dr. Friedman's unexpired term, 1965-1966.

Guest speakers invited to speak to the candidates during the past academic year included Dr. Lothar Rubinstein and Dr. Herbert Rosenfeld, both of London.

We are one of the first Institutes to set up an effective retirement policy for Training Analysts. We have followed the guidelines recommended to the Board on Professional Standards, modified to fit our own needs.

The following retirement procedures were adopted by the Education Committee on June 3, 1965:

I. For future Training Analysts and the following eleven Training Analysts:

Drs. Evans, Van der Heide, Vatz, Friedman, McGuire, Fielding, Greenson, Ekstein, Rangell, Kupper, and Lihn

- (a) No new candidate/analysands after reaching age 68.
- (b) No new candidate/supervisees after reaching age 70.
- (c) Retirement from Education Committee after reaching age 70.
- (d) Annual appointments after age 68 until completion of work with candidates.

II. For following five Training Analysts:

Drs. Fenichel, Brunswick, Lewy, Jokl, Mrs. Deri

- (a) No new candidate/analysands after end of current appointment.

Fenichel: October 1967  
Brunswick: December 1966  
Lewy: April 1966  
Jokl: March 1968  
Deri: April 1966

- (b) No new candidate/supervisees after end of current appointment.
- (c) Retirement from Education Committee at end of current appointment.
- (d) Annual appointments after end of current appointments until completion of work with candidates.
- (e) May retire from Education Committee after reaching age 70 without jeopardizing Training Analyst status.

PSYCHOANALYTIC CLINIC

Henry Lihn, M.D., Director  
Jack Abrams, M.D., Assistant Director

The following members were most helpful in processing applications to the Psychoanalytic Clinic:

Jack Abrams, M.D.  
Morris Beckwitt, M.D.  
Marvin H. Berenson, M.D.  
Seymour Bird, M.D.  
Gottfried Bloch, M.D.  
Roberta Crutcher, M.D.  
Richard Edelman, M.D.  
Edward Feldman, M.D.  
James Grotstein, M.D.  
Joshua Hoffs, M.D.  
William S. Horowitz, M.D.

Sidney Z. Hulbert, M.D.  
Albert Kandelin, M.D.  
Genevieve May, M.D.  
Ralph M. Obler, M.D.  
Arthur Ourieff, M.D.  
Kenneth Rubin, M.D.  
Morton Shane, M.D.  
T. L. Schoenberger, M.D.  
Donald G. Siegel, M.D.  
Robert J. Stoller, M.D.  
Helen Tausend, M.D.  
Robert Zaitlin, M.D.

During the past year, major changes were made in regard to candidate participation in the treatment of Clinic cases. The requirement that all candidates must treat in analysis at least one Clinic case was modified. It is now on a voluntary basis and the pledge to treat Clinic cases is no longer required.

It was also decided that a candidate with a Clinic case in treatment at that time should have the option either to turn over the fee to the Clinic and continue to receive supervision without charge, or, to elect to retain the fee and make arrangements for supervision of the case on a private basis. The above changes became effective December 1, 1964 for a trial period of one year.

Another major change, approved April 1965, extends the activities of the Psychoanalytic Clinic to give treatment to selected cases which are not accepted for psychoanalysis.

These new procedures met with the instant approval of the candidates and members of the Institute and Society. As a consequence of this, the Psychoanalytic Clinic has received generous gifts which I will refer to later in this report.

#### EXTENSION DIVISION

Hilda S. Rollman-Branch, M.D., Director

This is the second year that Dr. Hilda S. Rollman-Branch has been Director of the Extension Division and from the schedule of events listed, it becomes obvious that this Division of the Institute keeps growing and has become important and influential in the dissemination of psychoanalytic knowledge to other professions, e.g., social workers, probation officers, psychiatrists, psychiatric residents, teachers, school psychologists, educators, attorneys and judges.

To give you some idea of the increased interest manifested by these groups, last year the attendance at the all-day conference for social workers was 63 and this year 149. The demand was so great we had to limit the number we could accommodate. In addition to this, we added three seminars for social workers. Two seminars consisted of six lecture-discussion sessions and one seminar for psychiatric social workers consisted of eight sessions.

The Extension Division in conjunction with the Reiss-Davis Clinic and the Center for Early Education, an accredited California college, continued their program for teachers, school administrators, school psychologists and pupil personnel workers.

This is the first year that the University of California at Santa Barbara has joined the teachers program given by the Extension Division of the Los Angeles Institute for Psychoanalysis and the Reiss-Davis Clinic. This program consisted of ten sessions and was given in Oxnard, California. Teachers who attended the above programs received two units of credit for each course.

The complete schedule for the Extension Division is attached.

FINANCE COMMITTEE

Leonard M. Rosengarten, M.D., Chairman

I am happy to report that our financial picture is a good one. Dr. Rosengarten presented the budget for the fiscal year 1965-1966 and it has been approved by the Board of Trustees. The financial statement and budget are on file.

Dr. Rosengarten's term of office has expired. I particularly wish to thank him for his fine work as Treasurer of the Institute for the past three years. He has worked diligently and conscientiously in guiding the fiscal affairs of the Institute in our ever-increasing activities.

\* \* \* \* \*

GRANTS AND CONTRIBUTIONS

The U. S. Public Health Service grant of \$10,000 to the Training School has been renewed for the year 1965-1966.

The National Institute of Mental Health grant to the Extension Division of \$5,616.00 was renewed for the year 1965-1966. We are to receive this grant annually until 1968.

A very good friend of the Los Angeles Institute, Miss Peggy Mahon, passed away this past year. She willed to the Institute the bulk of her estate, the amount of which has not yet been determined.

We have received an anonymous gift of \$2,000 to be used for the Psychoanalytic Clinic.

The Ladies Auxiliary of the Los Angeles Psychoanalytic Society sponsored a Champagne Musicale on May 23, 1965. They have donated \$1,000, the proceeds of this Musicale, to the Psychoanalytic Clinic.

During the year, some members of the teaching staff of the Extension Division have donated their stipend to the Institute.

We are most appreciative to our friends for their generosity and efforts on our behalf.

\* \* \* \* \*

NEW MEMBERS

The following members were elected to membership in the Los Angeles Institute during the past year:

Leonard Gilman, M.D.  
Donald Siegel, M.D.

T. L. Schoenberger, M.D.  
Donald J. Perry, M.D.  
Robert Zaitlin, M.D.

\* \* \* \* \*

I would like to call to your attention a few items of special interest about honors received by some of our members.

Dr. Robert Dorn - President of the Beverly Hills Chapter  
Los Angeles County Medical Association

Dr. Ralph R. Greenson - Lecturer at the Plenary session of the  
American Psychoanalytic Association,  
May 1965

Dr. Leo Rangell - Re-elected President-Elect of the  
American Psychoanalytic Association

Dr. Robert Stoller - President of the Southern California  
Psychiatric Society

\* \* \* \* \*

It is with sadness that I report to you that Mr. Robert Triest passed away April 9, 1965. Mr. Triest had been a member of the Board of Trustees of the Los Angeles Institute for Psychoanalysis since 1954. He always maintained a deep interest in the affairs of the Institute and during my term of office, on many occasions I called upon him to help me in difficult situations. He gave unstintingly of his time, effort and advice. His passing will leave a void which will be difficult to fill. We extend to his wife and family our condolences.

\* \* \* \* \*

In conclusion, a few remarks about one of our most pressing problems. The Joint Committee on Mutual Problems has been working for the past year on a plan of reorganization. We knew from the beginning that this task is a monumental one and that it could not be accomplished immediately. A similar committee of the American Psychoanalytic Association took four or five years to report their recommendations. I hope we do not follow in their footsteps.

I feel it is imperative that our committee present their recommendations as soon as possible. They should expend all their energies to this task and if necessary meet three or four times a month. An ideal goal would be to present their plan by the first of the year or as soon thereafter as possible. The Institute and Society would then have an opportunity to study the recommendations so that action could be taken before the next Annual Meeting.

\* \* \* \* \*

I want to thank the members of all committees for the fine support they have given me during the past year, and to Ermalene Yerkes and Jean Kameon, without whom I would be lost.

With this kind of support from all of you, I cannot help but look forward to another successful year.
